*"In today's purebred livestock business, we are dealing with only two items--genetics and management. Without the right genetics, management cannot be a success. With the proper genetic base, management becomes all-important. The pedigrees and the satisfaction expressed by buyers over the years show this base is here. Buy and manage properly, and this will be a good day to remember."*

Harry Clampitt, Executive Secretary  
American Milking Shorthorn Society

## WELCOME TO KIMMELL PRODUCTION SALE

This first Production sale of the A.G. Kimmell Herd presents the opportunity of the season to individuals interested in Double Registered Shorthorns. The influence of Haumont Breeding is very important in this herd and many cattle are direct descendants of this line. Cattle with size that have not been pampered is the best description for this offering. Cattle that impress their new owners more each day is what the satisfied customers say.

We have included both the American Shorthorn Association Pedigree and American Milking Shorthorn Association Pedigree in this sale catalog for your information.

**STANDARD GUARANTEE**  
**OF THE AMERICAN SHORTHORN**  
**BREEDING ASSOCIATION**

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animal.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller. Cows with calves at foot even though bred are not given any guarantee.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either the buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any other animal later substituted.
5. In the event an animal is returned by the buyer to the seller as a non-breeder, the buyer must furnish to the seller a veterinarian's certificate showing that his herd is healthy if such certificate is required by the seller.
5. All animals are sold to comply with the laws regulating tuberculosis and bang's disease of the state or country in to which they may be shipped.
7. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing name and record numbers of sire and dam, as well as service date.
3. Shipment will be made as soon as possible after the close of the sale, at purchaser's risk or injury after animals are bid off.
